

Seismic Workboat

Exploration & Geosurvey

Multipurpose seismic workboat, here equipped with reels for cable laying

High payload allows also installation of a single or multiple Junkers compressor skid to be used as a source vessel. Folding platform and cab enables the transport in a standard 40' container, minimizing rigging and de-rigging time.

Technical specifications of the Seismic Work Boat

Type	Multi Cat Seismic Vessel
Length overall	10,50 m
Waterline length	9,50 m
Hull width	4,36 m
Max. draught	0,72 m
Max. horsepower	220,6 kW (300 Hp)
Brand type engine	Yamaha F150
Payload	6000 kg
Max. no. persons	6
Design class	C
CIN-code	NL-KDM19117H909
