

DMT – Your Partner

You want:

- A partner for post mining questions
- The interdisciplinary interaction for relevant engineering services
- Comprehensive know-how
- All necessary project phases from one source

We offer:

- Holistic project consideration
- Project budget, schedule and cost reliability
- Extensive experience in planning and execution in the field of “old mining”
- Interdisciplinary transfer of knowledge
- Trusting and cooperative partnership with all project participants

DMT GROUP

Excellence and innovation in everything we do – this is our claim as an independent, global engineering and consulting company in the construction, mining, plant and mechanical engineering sectors. DMT is the “Engineering & Natural Resources” division of the TÜV NORD GROUP.

Sustainable value creation for our clients is always the goal – knowledge, digitalization and internationalization are our success factors. To this end, we count on our 1,100 employees, 14 subsidiaries, 30 locations and 280 years of experience.

In infrastructure, civil engineering and mining, we are general planners and specialists. We implement system and individual solutions in every discipline and bundle competencies for consulting, engineering, tendering, implementation, monitoring, operation and refurbishment, ensuring planning and investment safety for our customers.

We call this engineering performance.

Post mining – Living within a mining region

Your Questions to us:
 Is the proof of a secure day surface given?
 Is this event a subsidence damage?

With our many years of experience with post mining issues, we support your projects with competent advice and expertise.

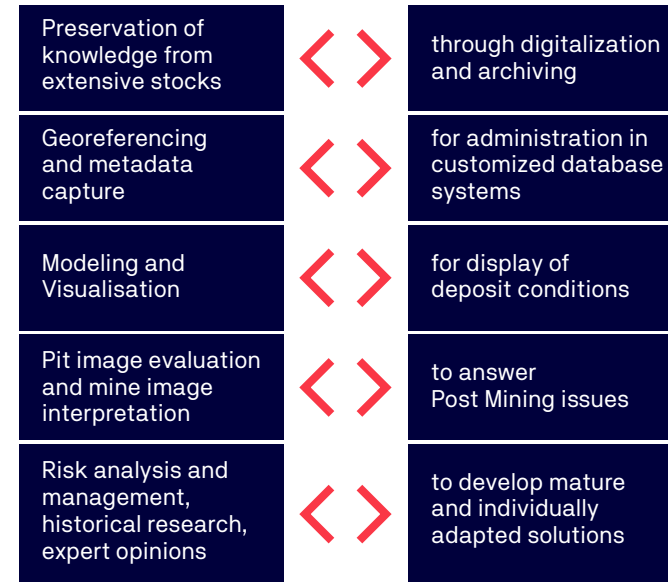

We develop
customized concepts

and accompany you
 with sound support throughout the
entire project.

Mine Surveying

The importance of long-term preservation of mine image information is immense. Digitalization is the modern tool for this.

DMT = many years of expertise
