

Live Presentations in 2018

- **Modern shaft support**
By Alexey Shalashinski
Russian-German Workshop “Russian/German Expert Exchange – Technical Innovation in Mining”, 29 January 2018, Moscow, Russia
- **Dealing with methane**
By Alexey Shalashinski
Russian-German Workshop “Russian/German Expert Exchange – Technical Innovation in Mining”, 30 January 2018, Moscow, Russia
- **Modern coal preparation (planning, execution, chemistry, coal to liquid)**
By Alexey Shalashinski
Russian-German Workshop “Russian/German Expert Exchange – Technical Innovation in Mining”, 30 January 2018, Moscow, Russia
- **Exploration projects focused on critical and high-tech mineral commodities in Africa**
By Dr Bernd Teigler
German Day at the Mining Indaba 2018, February 6, 2018, 3:30 pm, Room No. 1.63, Cape Town, South Africa
- **Combination of CMP-refraction seismic with reflection seismic to investigate flat structures in urban areas**
By Dr Dirk Orłowski
78th Annual Meeting of the German Geophysical Society, 14 Feb. 2018, Leoben, Austria
- **New Innovation & Services for Exploration and Mining to the International Exploration and Mining Industry – View from a European-based service provider**
By Dr Paul Althaus
PDAC 2018 - EIT RawMaterials Day, 6 March 2018, Toronto, Canada
- **The new "DMT test dust A2 fine quartz-free"**
By Umalan Gogilan and Dr Dirk Renschen
FILTECH 2018, 14 March 2018, Cologne, Germany – Session G13: Particles for-Filter Testing
- **Future-proofing mining operations and mining development - Industry 4.0 in action**
By Alexey Shalashinski
Session 5 at MINEX Central Asia, 19 April 2018, Astana, Kazakhstan

- **Influence of different European pilot and laboratory coke ovens and coking conditions on coke qualities**
By Dr. Drazen Gajic
AISTech 2018, 7 - 10 May 2018, Philadelphia, USA
- **A Geophysical Investigation of Near Vertical Boreholes in the Roof of an Underground Tunnel in a Coal Mine**
by Patrick Mah (DMT Geosciences), Brian Wong (Teck Coal) and Torsten Gorka (DMT)
Geo Edmonton 2018, 23 - 26 September 2018, Edmonton, Alberta, Canada
- **A Novel Case Study on Achieving Site Closure - EM31 and Pseudo-3D OhmMapper Surveys, Calibrated with Physical Analytical Soil Data, to Create Impacted Soil Volume Estimates before Remediation**
by Adam Peake (DMT Geosciences) and David Barcham (Pinchin)
Geo Edmonton 2018, 23 - 26 September 2018, Edmonton, Alberta, Canada
